

Family Health Team
Équipe de santé familiale

Strategic Plan 2022–2027

OUR MISSION – The Blue Sky Family Health Team is a multi-disciplinary team of allied health professionals and support staff, committed to excellence in the provision of quality, patient-centred health care services under the direction of the physicians of the Family Health Team and offered in a caring, coordinated and responsive manner.

OUR VISION – Working together with physicians and their patients, the Blue Sky Family Health Team will strive to achieve optimal health outcomes in preventative care and disease management.

OUR VALUES – Quality, Respect, Integrity, Patient-Centred, Excellence, Collaboration, Innovation.

Strategic Directions

1

Deliver excellent patient-centred care that is accessible and timely

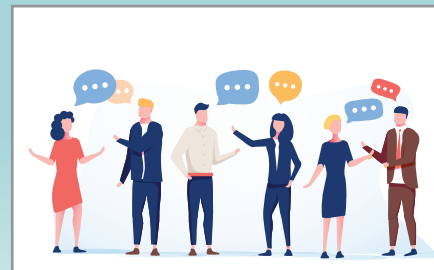

2

Be a great place to work

3

Strengthen partnerships for the health of our patients

Objectives

- We will improve access to care by assessing existing barriers and implementing improved processes
- We will improve patient access and timeliness of care by optimizing the use of digital and virtual tools
- We will help ensure excellent care by revitalizing our quality improvement framework

- We will nurture a healthy team culture by improving opportunities for staff input
- We will foster greater collaboration and understanding between the FHT and the FHO
- We will refine our governance practices to align with government requirements

- We will leverage resources for our patients by collaborating with other health care providers in our community
- We will enhance student learning by developing and implementing a plan for engaging with Community Colleges and Universities
- We will look for opportunities to participate in system-wide planning
